The Honorable William Delahunt
U.S. House of Representatives
1317 Longworth House Office Building
Washington, D.C. 20515-2110

Representative Delahunt:

My husband used to tell me that we have atomic/nuclear bombs because we intend to use them, which horrified and astonished me. He had a man's knowledge of the world. What worries me about a standing army is that we intend to use it, and I do not approve, just as I do not approve of the adventure in Iraq. Please extend a moral and ethical vote in this matter, and turn it down. Thank you for reading this message.

Sincerely,

[REDACTED]
